Seoyul HWANG | Manager

- 7+ years of experience in Business Strategy & Operations Management
- Former Strategic Planner at fast-growing startups
- Expertise in budget optimization, IR, and project management
- Directs brand strategy and digital marketing at Eastsea Brother

Problem

- The pet food market lacks high-quality, traceable seafood-based options
- Conventional pet treats rely on land-based proteins, offering limited nutritional diversity for pets

Solution

- Premium handcrafted seafood treats sourced from the East Sea of Korea, combining marine nutrition with artisanal quality
- Small-batch, traceable production that connects local fisheries to pet owners

Key Features

- East Sea-sourced seafood ingredients with traceable origins
- Handcrafted, small-batch production for consistent quality
- Community and pet wellbeing-driven brand positioning

Business Model

- D2C and B2B distribution of handcrafted seafood pet treats, with OEM/private-label potential for regional pet food brands

Business Snapshot

- 1.2x – 1.5x Annual Growth; NPS 76.3% (in Korea)
- Exporting to US, Singapore, Hong Kong, Philippines, Thailand and Saudi Arabia; export sales of USD 180K
- Products sold through 5 retailers in major US cities and Earthwise Pet with 200 outlets in US, 14 premium pet shops in SG
- Online expansion in discussion: Chewy (leading US online pet retailer), Julius K9 (European retailer)
- Sold out on Day 2 of Singapore Pet Festival exhibition (2024)

Target Audience

- Premium pet food distributors, pet specialty retailers, and health-conscious pet owners in Southeast Asia

Seeking Opportunities

- Distribution partners and retail buyers in Southeast Asian pet food markets
- Co-development opportunities to reshape pet food culture with marine-sourced nutrition
